Parallel Lines Angles Formed by Transversals

Name: _____ Block: _____

- | | | |
|--------------------|----------------------|-------------|
| Corresponding | Consecutive interior | Linear Pair |
| Alternate interior | Consecutive exterior | Vertical |
| Alternate exterior | | or NONE |

For #1-7, write the angle pair name from the list above:

- 1) $\angle 1$ and $\angle 7$
- 2) $\angle 4$ and $\angle 5$
- 3) $\angle 2$ and $\angle 7$
- 4) $\angle 3$ and $\angle 5$
- 5) $\angle 2$ and $\angle 6$
- 6) $\angle 3$ and $\angle 2$
- 7) $\angle 6$ and $\angle 5$

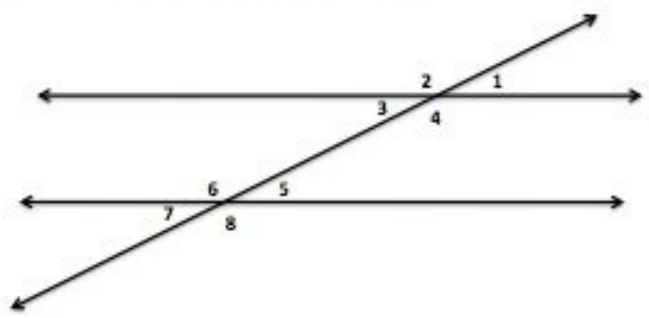

For #8-15, find the indicated angle measure.

- 8) If $\angle 7 = 50^\circ$, find $m\angle 2$.
- 9) If $\angle 4 = 123^\circ$, find $m\angle 8$.
- 10) If $\angle 6 = 63^\circ$, find $m\angle 3$.
- 11) If $\angle 8 = 149^\circ$, find $m\angle 2$.
- 12) If $\angle 4 = 110^\circ$, find $m\angle 6$.
- 13) If $\angle 8 = 98^\circ$, find $m\angle 7$.
- 14) If $\angle 4 = 176^\circ$, find $m\angle 1$.
- 15) If $\angle 3 = 35^\circ$, find $m\angle 7$.

Name: _____ Date: _____

PARALLEL LINES CUT BY A TRANSVERSAL PRACTICE

Decide whether each statement is TRUE or FALSE. If the statement is FALSE, correct the statement.

1. $\angle 1$ and $\angle 2$ are vertical angles.
2. $\angle 1$ and $\angle 5$ are corresponding angles.
3. $\angle 2$ and $\angle 5$ are alternate exterior angles.
4. $\angle 4$ and $\angle 6$ are alternate interior angles.
5. $\angle 7$ and $\angle 2$ are corresponding angles.
6. $\angle 3$ and $\angle 6$ are interior angles on the same side of the transversal.
7. $\angle 3$ is congruent to $\angle 8$.
8. $\angle 3$ and $\angle 7$ are corresponding angles.
9. $\angle 8$ and $\angle 2$ are alternate exterior angles.
10. If the measure of $\angle 8$ is 112° , find the missing angle measures.

Angles in Parallel Lines Worksheet (L:6/7 G:4)

Find the missing angles in each question. It is very important to give reasons for your answers. Complete at least one question from each section and at least one full section before moving onto the GCSE questions.

Green (L4)

a	b	c	d
a =	b =	c =	d =
Reason:	Reason:	Reason:	Reason:

Orange Part 1 (L4)

a	b	c	d

Orange Part 2 (L4)

a	b	c	d

Equations and Transversals

Each figure consists of two parallel lines and a transversal. Find the values of x and y .

1. $x =$	2. $x =$
3. $x =$ $y =$	4. $x =$ $y =$
5. $x =$ $y =$	6. $x =$ $y =$

First, as the bef and ehj are corresponding, we get $\angle \text{ours ehj} = 39^\circ$. Then, as the eths of EDH and DHG are alternative, we get $\angle \text{e ngulo dhg} = 76^\circ$. So, because the dhg, dhe and ehj are on a straight line and in a straight line add 180° , we get $\angle \text{e ngulo DHE} = 180 - 76 - 39 = 65^\circ$. Degree Finally, because the Dhe and e ngulo x is vertically opposite, we get $x = 65^\circ$. There are other moms © all possible to ask this question. As long as you have the fact that you apply correctly, explain each step and get the 71-grade response, your answer is correct. Stop! Before reading, did you conclude the author's Tom spreadsheet 1, first? If you come back, answer questions, and then go back and find out what you hit and what you may have lost. If you are curious about what the author's tone really is and wondering how to figure it out, here is three of the tricks you can use to determine the author's tone when you do not have the ideas. Feel like you want to use these free PDF files free for your own educational use: author's tone spreadsheet 1 | Author's Tone Spreadsheet 1 Answer Key 1. What does the author want to convey through the use of the phrase "ready consent to terms and some coins thrown on the table"? A. The lack of ways and consideration of the stranger. C. the foreign greation of foreign in line. . We know that because he is covered with snow and asks for human charity, that we can only assume it because he is cold. Therefore, even knowing that he is uncomfortable, the correct answer is not D. The author uses the words "ready Which means "more fancil or quickly disposed of" consent and "flung" currencies to the table to indicate a hasty pace. Yes, we know that it is because it is uncomfortable, but the sentences indicate speed. 2. The author's attitude towards the mothers who try to organize marriages for their daughters could be better described as: A. Accepting the B. Astonished by the D. Amused realm by the realm the correct answer is D. Even if we read nothing high in the first line, we would have the sensation that the author was a little fun on the subject. The author also makes the fun scene for putting a complacent husband against his busy wife. Austen describes the mother as a medium, gossip and impatient. If Austen was annoyed by the idea, it would make the mother more impeccable. If she was amazed at the idea, she would make her husband act Aghast when Mrs. Bennet brings him. If she accepted the idea, she probably she would not have written about it in a spiritual way. So choose the best bet. 3. That Tom is the author who most likely tries to convey with the sentence, "it is a universally recognized truth that a man in possession of good luck must be in desire for a wife." A. Satan B. Scorpion E o C. REPRESSIVE D. Tired The correct answer is. This speaks to the tone of the stretch as a whole. She is sarcastic about the society's realization of marrying young women with rich men. His declaration of superfiniton, "a universally recognized truth" is an example of hyperbole, which is an exaggerated declaration not to be made literally. "And although it may be personally being REPROXIMATED OR SPONTING OF THE IDEA, its tone does not transmit it in this Sama. 4. Which of the following options provides the best answer to the author's final question put By keeping the tone of the article? A. It may be that I would fall into a nightmare without knowing. B. It had to be the sadness of the day. Nothing about the house itself was particularly depressing. C. The solution challenged me. I couldn't stay in the heart of my discontent. D. It was a mystery that I could not solve; Neither could I deal with the gloomy fantasies that would pile me up when I thought. The correct choice is D. Here, the answer should closely mirror the language in the text. The words used by Poe are complicated, as well as their phrase structure. The sentence structure of option B and D is very simple and the answer of choice B is incorrect based on the text. The choice It seems logical until you put it against option D, which uses a complex structure and language similar to the ones already in the text. Five. What emotion is the author probably trying to awaken from his reader after reading this text? Hatred A. C. seizure . What's gonna come up? If he was trying to make the reader feel depressed, he would have talked to something more personal. And he wasn't trying to terrorize the reader in this scene either. He would have used more scary content rather than relying on the dark and depressing words and phrases he does. And the choice it's completely off! Therefore, the option C is the best answer. If you're seeing this message, it means we're having trouble loading external resources on our site. If you are behind a web filter, make sure the *.kastatic.org and *.kasandbox.org domains are unlocked.
